VOL. XXIII. RALEIGH, NORTH CAROLINA, THURSDAY, NOVEMBER 2, 1905. NO. 44.

EXHIBIT PAPER

GREAT SPEECH

By President Roosevelt to the Students at Tuskeegee

GAVE MUCH GOOD ADVICE

In His Address He Urges the Importance of Good Negro Citizenship and Points Out Economic Opportunities in the South.

Tuskeegee, Ala., Special—President Roosevelt visited the Institute presided over by Booker T. Washington located here on Tuesday and reviewed the student body. He took great interest in the work exhibited by the school and also made an address to the students and faculty, and all those who had gathered to do him honor.

Before beginning his speech the President said he had no idea that he would be so deeply impressed and so deeply pleased as he had been. "While I have always stood for this institution," he continued, "now that I have seen it and realize as I had never realized by the descriptions of it, all it means, I will stand for it more than ever."

The President's Address.

To the white population as well as to the black it is of the utmost importance that the negro be encouraged to make himself a citizen of the highest type of usefulness. It is to the interest of the white people that this policy be conscientiously pusued and to the interest of the colored people that they clearly realize that they have opportunities for economic development here in the South not now offered elsewhere. Within the last twenty years the industrial operations of the South have inerased so tremendously that there is a scarcity of labor almost everywhere; so that it is the part of wisdom for all who wish the prosperity of the South to help the negro to become in the highest degree useful to himself, and therefore to the community in which he lives. The South has always depended, and now depends, chiefly upon her native population for her work. Therefore in view of the scarcity not only of common labor, but of skiled labor, it becomes doubly important to train every available man to be of the utmost use, by developing his intelligence, his skill and his capacity for conscientious effort. Hence the work of Tuskeegee Normal and Industrial Institute is a matter of the highest practical importance to both the white and the black man, and well worth the support of both races alike in the South and in the North. Your fifteen hundred students are not only being educated in the head and heart, but also trained to industrial efficieney; for from the beginning Tuskeegee has placed especial emphasis upon the training of men and women in agriculture, mechanics and household duties. Training in these three fundamental directions does not embrace al that the negro or any other race needs, but it does cover in a very large degree the field in which the negro can at present do most for himself and be most helpful to his white neighbors. Every black man who leaves this institute better able to do mechanical or industrial work, adds by so much to the wealth of the whole community and benefits all people in the community. The professional and mercantile avenues to success are overcrowded, for the present the best chance of success awaits the intelligent worker at some mechanical trade or on a farm; for this man will almost certainly achieve industrial independence. I am pleased, but not in the least surprised to learn that many among the men and women trained at Tuskeegee find immediate employment as leaders and workers among their own people, and that their services are eagerly sought by white people for various kinds of industrial work, the demand being much greater than the supply. Viewed from any angle, ignorance is the costilest crop that can be raised in any part of this Union Every dollar put into the education of either white man or black man, in head, in hand and in the heart, yields rich devidends to the entire community. Merely from the economic standpoint it is of the utmost consequence to all our citizens that institutions such as Tuskeegee should be a success. But there are other and even higher reasons that entitle it to our support. In the interest of humanity, of justice, and of self-protection, every white man in America, no matter where he lives, should try to help the negro to help himself. It is the interest an for the protection of the white man to see that the negro is educated. It is not only the duty of the white man, but it is to his interest, to see that the negro is protected in property, in life, and in all his legal rights. Every time law is broken every individual in the community has the moral tone of his life lowered. Lawlessness in the United States is not confined to any section; lynching is not confined to any section; and there is perhaps no body of American citizens who have deserved so well of the entire American people as the public men, the publicists, the clergymen, the countless thousands of high-minded private citizens who have done such heroic work in the South in arousing public opinion against lawlessness in all itts forms, and especially against their example will exist in the North as well as in the South, for there are just as great evils to be warred against in one region of our country as in another, though they are not in all places the same evils. And when any body of men in any community stands bravely for what is right, those men not merely serve a useful purpose in doing the particular task to which they set themselves but give a lift to the cause of good citizenship throughout the Union. I heartily appreciate what you have done at Tuskeegee; and I am sure you will not grudge my saying that it could not possibly have been done save for the loyal support you have received from the white people round about; for during the 25 years of effort to educate the black man here in the midst of a white community of intelligence and culture, there has never been an outbreak between the races or any difficulty of any kind. All honor is due to the white men of Alabama, to the white men of Tuskeegee for what they have done. And right here, let me say that if in any community a misunderstanding between the races arises, over any matter, infinitely the best way out is to have a prompt, frank and full conference and consultation between representatives of the wise, decent, cool-headed men among the whites and the wise, decent, cool-headed colored men. Such a conference will always tend to bring about a better understanding, and will be a great help all around.

Hitherto I have spoken chiefly of the obligation existing on the part of the white man. Now let you remember on the other hand that no help can permanently avail you save as you yourselves develop capacity for self help. You young colored men and women educated at Tuskeegee must by precept and example lead your fellows toward sober, industrious, law abiding lives.

You are in honor bound to join hands in favor of law and order and to war against all crime, especially against all crime of men of your own race; for the heaviest wrong done by the criminal is the wrong to his own race. You must teach the people of your race that they must scrupulously observe any contract into which they in good faith enter, no matter whether it is hard to keep or not. If you save money, secure homes, become tax payers and lead clean decent modest lives, you will wi nthe respect of your neighbors of both races. Let each man strive to excel his fellows only by rendering substantial service to the community in which he lives. The colored people have many difficulties to pass through, but these difficulties will be surmounted if only the policy of reason and common sense is pursued. You have made real and great progress. According to the census the colored people of this country own and pay taxes upon something like three hundred million dollars worth of property, and have blotted out over fifty per cent of their illiteracy. When you have done in the past is an indication of what you will be able to do in the future under wise leadership Moral and industrial education is what is most needed, in order that this progress many continue. The race cannot expect to get everything at once. It must learn to wait and bide its time; to prove itself worthy by showing its possession of perseverance, of thrift, of self control. The destiny of the race is chiefly in its own hands, and must be worked out patiently and persistently along these lines. Remember also that the white man who can be of most use to the colored man is that colored man's neighbor. It is the Southern people themselves who must and can solve the difficulties that exist in the South; of course what man in the South lies in his steady hope of advancement for the colored commonsense effort to improve his moral and material condition and to work in harmony with the white man in upbuilding the commonwealth. The future of the South now depends upon the people of both races living up to the spirit and letter of the laws of their several States and working out the destinies of both races, not as races, but as law abiding, American citizens.

Wilmington Man Dies in New York.

Wilmington, Special.—The remains of the late George W. Doyle, formerly a citizen here, arrived Sunday night from New York, where he died Wednesday as the result of an accident abord a ship. The funeral was conducted at 9:30 o'clock Sunday from Saint James' Episcopal church and the remains will be laid to rest in the family lot in Oakdale cemetery. Mr. Doyle was formerly a valued member of the Wilmington Light Infantry.

Southern Pacific to Bridge the Atchafalaya.

Houston, Tex., Special.—Traffic Manager Thornwell May, of the Atlantic system of the Southern Pacific Railroad, states that he has been finally determined to build a concrete and steel bridge across the Atchafalaya river at Morgan City, La., the structure to cost approximately $500,000. There will be six permanent spans and one draw span the total length of the bridge to be 1,700 feet

POOR RUSSIA

Suffering Now From Terrible Internal Affairs

REVOLUTION IN PROGRESS

Czar Cowers in His Palace and Does Nothing to Meet the Storm, His Weakness Communicating Itself to the Whole Government, While the Revolutionists Are Dominating the Situation More and More.

St. Petersburg, By Cable.—While the day passed quietly, without bloodshed in the Russian capital, and while the city is outwardly calm, the developments all indicate that a crisis is imminent, although the streets are filled with troops, and reenforcements are now putting in from Finland, the government seems utterly powerless to cope with the situation and many calm observers seem seriously to believe that the present regime is tottering to its fall.

Differences have developed between Count Witte and Gen. Trepoff, and while the precious moments pass the Emperor, surrounded by the Imperial family, remains shut up at Peterhoff, seemingly still hesitating as to what course to pursue .

Grave doubt's are expressed as to whether even the imperial guards can now be relied upon. Discontent is rife. Early Sunday morning the Fourteenth and Eighteenth Equippage of sailors of the guard, who have been shut up like prisoners in barracks, on the Moska Canal, demolished the windows and furniture and in the afternoon a detachment consisting of four officers of the guard went to the lawyer's assembly, and told the barristers that many officers and a large part of the troops were disgusted with the government, and ready to enlist in the movement for freedom. They asked for aid towards effecting organization and said they had discussed among themselves the questions of resigning, but decided to show that people in uniform could help to achieve liberties. Even the Cossack patrols, in keeping idlers moving in the streets, seemed careful not to use their whips, and simply drove the crowds along before their advancing horses.

A meeting of the muncipal council was held Sunday evening at which the strikers' committee appeared. In an impassioned speech the leader of the deputation presented the following demands of the workmen and affiliated organizations:

First, A constitution and political liberty.

Second, That the city furnish food to the workmen.

Third, That the city refuse further supplies to the troops and the police.

Fourth, That the troops be moved from the water works or otherwise the strikers would cut the water supply.

Fifth, The immunity of the deputation from arrest.

The council granted the last demand and promised to reply to the other demands. The council sent requests to both General Trepoff and Minister of the Interior Bouligin not to arrest members of the deputation but the police nevertheless took them into custody. Upon urgent representations, General Trepoff an hour later released them.

Roll and Panell Factory.

High Point, Special.—Another new factory has been launched here to manufacture roll and panel work and is promoted by Messrs. J. P. and D. S. Hayworth. Work on the building will begin at once.

Statue of Von Moltke Unveiled.

Berlin, By Cable.—A statute of Field Marshal Von Moltke, the gift of the army to the German people was unveiled here, the one hundred and fifth anniversary of his birth, in the presence of Emperor William, the Imeprial family, all the great persons ages of state, and many thousands of people.

Express Robber Pleads Guilty.

Pittsburg, Special.—Edward G. Cunliffe, the Adams Express robber. went into court and pleaded guilty to two charges of larceny, representing a theft of $101,100. Sentence was suspended until Saturday. Conliffe's action caused much surprise, as neither the Adams Express Company o Pinkerton's detective agency were represented in the court. He has no counell and the belief is growing that Cunliffe is mentally unbalaneed.

Twelve Dead in Wreck.

Kansas City, Mo., Special—At least 12 persons were killed and 30 others injured in the wreck of one of the fastest regular trains on the Atchison, Topeka & Santa Fe Railway, the California limited, which left Chicago at 10 o'clock Monday night for the far west. The train was ditched one mile east of Sheffield, Mo., six miles from the business center of Kansas City.

WORK AT WHITNEY

Largest Power Development in the South. Aand Second Largest in the World.

Whitney, Special.—One of the most remarkable transactions that this country has ever witnessed is now in progress at this point, the cause being the enormous dam the T. A. Gillespie Company is constructing for the Whitney Company. Whitney is a new town building as fast as it can to accomodate the hands now employed but it cannot keep up to the requirements, because the requirement move away from it.

The Whitney Company, headed by Geo. I. Whitney, if Pittsburg, Penn., has given the Gillespie Company, of Pittsburg and New York, a contract amounting to approximately two and a half million dollars, which is one of the biggest contracts ever awarded for development purposes in the South. This contract includes the construction of a dam across the Yadkin river at the falls here, and a canal some four miles long to carry the water from the dam to set of steel penstocks that will direct the water against a battery of turbine water wheels, to develop 50,000 horse-power.

The Gillespie Company has the work well under awy, employing for the prosecution of the job 11 locomotives to handle the material, and nearly six miles of trackage to include all points on the job. The dam will reach across the river at a point where it is 1,300 feet wide. At the base the dam will be a substantial granite wall sixty feet thick, the granite coming from the Whitney Company's quarries up near Salisbury. It will stand fifty feet high from the foundation, the top rising 40 feet above low water in the river. To build this gigantic structure will require the placing of 125,000 cubic yards of masonry, involving the use of 200,000 barrels of Portland cement and hundreds of train loads of sand and granite. The whole structure will be a solid wall of concrete and rubble work backed and faced by a wall of cut granite blocks several feet thick. When the dam is finished it will raise a head of water sufficient to give a fall at the foot of the rapids of 130 feet, or almost as much as is available at the great cataract of Niagra.

An Act of Bravery.

Concord, Special.—Reports come from Mount Pleasant of an heroic action which should commend the actor to the Carnegie hero metal committee. A few days ago several men were at the bottom of a large well at work. A bucket was being let down to them in which were six loaded dynamites, which would have exploded on the slightest jar. By some means the rope slipped and the heavy bucket fell to the bottom and all thought this meant sure death to the men below. But Mr. Ernest Faggart, one of the men in the well, saw the falling bucket and with great bravery caught it and thereby saved the lives of all below. He was bruised considerable but was not seriously hurt.

Fire in Charlotte.

Charlotte, Special.—Fire which started in Cochrane's livery stable in North College street at 2.10 o'cock Wednesday afternoon destroyed property to the extent of $50,000. Half a block, between East Trade and Fifth streets, was practically burned. 20 horses, most of them belonging to out of town people attending the Mecklenburg Fair, were burned to death. A stiff wind was blowing and the fire department got the fire under control with ddifficulty. The losees were partially covered by insurance.

Met Death Between Cars.

Winston-Salem, Special.—Pat Ladd a white man, who had only been in the employ of the Southern Railway a few days, was killed at Siloam, on the Wilkesboro division, about noon Saturday. Ladd was a brakeman and was caught between two box cars and crushed to death. His home was at Roaring River and his leaves a family. He was 43 years of age.

North Carolina Briefs.

The local train from Weldon struck and instntly killed D. P. Perry, white, 68 years old, half mile north of Raligh Saturday. He was walking along the track. The engineer gave two whistles. The man seemed rattled and walked back and forth. His back was broken.

The Governor offers a reward of $150 for John Tait, a white man who escaped from Buncombe county jail. and who, it is alleged killed Joan Crowder, in Madison county.

News Notes.

Judge John H. Fulton, of Wytheville, was elected Grand Commander of the Confederate Veterans of Virginia, in session at Petersburg.

Dr. W. H. Taylor, State Chemist and Coroner, declares his belief that the Perkins children, in Richmond were killed by phosphorous poisoning.

Capt. Charles E. Vawter, superintendent of the Miller Manual Labor School, died at Charlottesville.

CZAR GIVES UP

Russia Will Have a Republican Form of Government

WITTE TAKES REINS IN HAND

Recent Peace Envoy Holds an All-Day Conference With the Humbled Sovereign and Finally Departs With a Signed Manifesto Granting Freedom of the Press, Right of Assembly and Immunity of the Person, Including the Writ of Habeas Corpus.

St. Petersburg, By Cable.—The autocracy of the Romanoffs, and the old order of things ceased to exist in Russia.

Emperor Nicholas has surrendered and Count Witte comes into power as Minister-President with an imperial mandate which will enable him to convert the farcial National Assembly into a real legislative boddy, elected by greatly extended suffrage, and to confer upon the people fundamental civil liberties, including free speech.

These welcome tidings reached St. Petersburg shortly before 6 o'clock Monday evening. Count Witte had spent the day with the Emperor at Peterhoff, going over the final draft of the manifesto to which he insisted that minor modifications be made, and before taking the train for St. Petersburg he telephoned to a friend that the Emperor had affixed his signature and that the imperial mandate comprising the conditions upon which he had agreed to accept office was in his pocket. These include freedom of the press, the right of assembly and the immunity of the person, including the right of habeas corpus.

Czar Wanted American Plan.

Count Witte insisted on a cabinet on the British model with a selected Premier responsible to the imperial Douma, or Parliament, while the Emperor clung to the appointment of members of the cabinet on the American plan by the Emperor as Chief of State.

The State Department has instructed Charge D'Affaires Eddy, in case of emergency, to give American citizens asylum at the embassy, and if necessary to charter a steamer.

Foreign Minister Lamsdorff is reassuring the ambassadors by formal ly guaranteeing the safety of foreign residents. He announces that the government is prepared to afford them military protection in St. Petersburg and elsewhere in the event of disorders. The following is the text of the imperial manifesto:

Russia's Magna Carta.

"We, Nicholas the Second, by the grace of God Emperor and Autocrat of all the Russias, Grand Duke of Finland, etc., declare to all our faithful subjects that the troubles and agitation in our capitals and in numerous other places fill our heart with excessive pain and sorrow.

"The happiness of the Russian sovereign is indissolubly boundd up with the happiness of our people, and the sorrow of our people is the sorrow of the sovereign.

"From the present disorders may arise great national disruption. They menace the integrity and untiy of our empire.

"The supreme duty imposed upon us by our sovereign office requires us to efface ourself and to use all the force and reason at our command to hasten in securing unity and co-ordination of the power of the central government and to assure the success of measures for pacification in all circles of public life, which are essential to the well-being of our people.

"We therefore direct our government to carry out our inflexible will in the following:

Privileges and Immunities.

"First, To extend to the population the immutable foundations of civic liberty, based on the real inviolability of person, freedom of conscience, speech, union and association.

"Second, Without suspending the already ordered elections to the State Douma, to invite to participation in the Douma, so far as the limited time before the convocation of the Douma will permit, those classes of the population now completely deprived of electoral rights, leaving the ultimate development of the people of the electoral right in general to the newly established legislative order of things.

"Third, To establish as an unchangeable rule that no law shall be enforcable without the approval of the State Douma, and that it shall be possible for the elected of the people to exercise real participation in the supervisiion of the legality of the acts of the authorities appointed by us.

"We appeal to all faithful sons of Russia to remember their duty towards the fatherland, to aid in terminating these unprecedented troubles and to apply their forces in co-operation with us to the restoration of calm and peace upon our national soil.

"Given at Peterhoff, October 30, in the eleventh year of our reign.

(Signed) "NICHOLAS."

VALUABLE HISTORIC FINDS

Important Finds By Secretary of State.

Raleigh, Special.—Several valuable finds have just been made by Secretary of State J. Bryan Grimes and these will no doubt throw much light upon matters connected with the Revolutionary days in North Carolina, especially the Mecklenburg Declaration the Cumberland Resolves and the Tryon Committee Report.

The pamphlet relating to the Mecklenburg Declaration is one printed in 1831 and which was thought to have been lost from the State Library. It was among the papers filed away from the Secretary of State's office, and may have been used by Col. Saunders. In it is the testimony of "Captain Jack" as to his ride in June, 1775. with the declaration, as well as other evidence of the 20th of May, 1775 Declaration. On the outer cover the reading is "The Declaration of Independence by the Citizens of Mecklenburg County on the Twentieth of May, 1775, with Accompanying Documents and the Proceedings of the Cumberland Association, Published by the Governor under the authority and direction of the General Assembly of North Carolina. Raleigh, Lawrence & Lemax, Printers to the State, 1831."

Another valuable find was the original copy of the "Journal of the Proceedings of the Provincial Congress of North Carolina, Held at Hillsboro, Twentieth of August, 1775. Published by authority. New Bern, Printed by James Davis, Printer to the Honorable the House of the Assembly. 1775." The president of the Assembly was Samuel Johnston, the Secretary, Andrew Knox.

A unique document as to its clear and specific terms and writing is the "Resolutions of the Committee of Surry county, Twentieth of August, 1775." The chairman of the committee was Benjamin Cleveland.

Bound in part of a copy of a newspaper of 1774 is another find. It is the "Minutes of the Proceedings for Tryon County, 1775. The Twenty-sixth of July, 1775. It is bound in part of a copy of what is evidently the "South Carolina Intelligencer and General Gazette," the date showing being "from Friday, June 3rd to Friday" the evident date missing being "June 10th, 1774."

All these documents will be carefully examined and copies will be made so as to keep the facts for use in the clearing up of mooted points in his history.

Two New Corporations.

Charters were issued by the Secretary of State to new corporations Friday as follows:

L. Harvey & Son Company, of Kinston, in Lenoir county, organized for the purpose of doing a general real estate and mercantile business. The capital stock subscribed is twenty thousand dollars, authorized, $50,000 The incorporators are Lemuel Harvey Charles Felix Harvey and P. P. Meade.

The Salisbury Transfer Company, with a capital stock of $10,000 authorized, to do a general transfer business and to maintain storage and waiting rooms and to operate between Salisbury and Spencer, in Rowan county. Incorporators are Chas. W. Mowery, T. B. Marsh and Max L. Barker.

To Employ White Servants.

Asheville, Special.—In the future the waiters and other help at the Mountain Park Hotel at Hot Springs will be white instead of colored people. This statement was made by a friend of Jack Rumbough's on the authority of Mr. Rumbough, one of the owners and managers of this noted hotel at Hot Springs. Mr. Rumbough, it was said, had gone to New York to engage white help for the coming season.

Fell on His Head.

Goldsboro, Special.—George Saunders, a white boy about 15 years old. fell from the top of a loaded tobacco wagon Friday afternoon and was very badly hurt. His head struck a brick bat which made an ugly wound from which the blood flowed freely Dr. M. E. Robinson dressed his wound and he is doing as well as could be expected.

The Governor's Private Secretary.

Raleigh, Special.—Governor Glenn on Friday appointed as his private secretary to take the position made vacant by the death of his brother, General James D. Glenn, Mr. A. H. Arrington, a son of the late Capt. J. P. Arrington, and teller in the office of the State Treasurer. The appointment was not a surprise as it had been known for some days that Mr. Arrington had been highly recommended for the position. The appointment, however, was only decided upon by the Governor Friday.

Another New Mill.

Graham, Special.—The Leota Cotton Mills Company has been incorporated by James V. Pomeroy, William E. White and J. Harvey White. The authorized capital stock is $15,000. The company has bought the mill owned by the Voohees Manufacturing Company, which was placed in the hands of receivers last June. The new company will begin operations as soon as the necessary help can be procured.

The Jefferson Turnpike.

Raleigh, Special.—Mr. R. B. Lacy, state treasurer, has returned from a visit to Wilkesboro, where he went to look at the Wilkesboro and Jefferson Turnpike. He expressed himself as being charmed with the country and impressed with the possibilities of the proposd road. The turnpike has now been completed to within nine or ten miles of Jefferson, from the line of Wilkes and Ashe counties. This means from Wilkesboro a construction of twenty-eight miles of the proposed turn-pike, much of which traverses some of the most difficult mountain sections considered from an engineering point of view and at the same time some of the most beautiful country to be found in the State. The completion of the road to Jefferson depends upon the action of Ashe county which in ten days will decide whether or not it will furnish the four thousand dollars additional needed to complete the route.

Charters Issued.

The Secretary of State Friday chartered the following corporations:

The Morris Telephone Company to engage in the construction of telephone and telegraph lines, etc. The principal office will be at Roxboro, in Pearson county. The authorized capital is one hundred thousand dollars, but business is commenced upon the payment of $10,300, which is subscribed by Messrs. T. H. Street, R. J. Teague, A. C. Boyles, J. D. Morris.

The Imperial Company, to own and sell farms, land, etc., and to do a general merchandise business. Principal office, Spray, in Rockingham County. Authorized capital stock $125,000. Incorporators: Thos. G. McAllister, B. K. Terry, J. Worth McAllister.

The New Garfield Wood-working Company was granted a charter with an authorized capital stock of twenty thousand dollars, to be located at Salisbury and New Garfield, and to work in and manufacture all kinds of woods, metal, etc. The incorporators are Leopold Graf, Weslie C. Ketchie and Hayden Clement.

Murdered by One Unknown.

Wilson, Special.—At the coroner's hearing of the murder case of Amos Batts, the jury brought in a verdict that the deceased was foully murdered by some unknown party. There being no evidence against George Jones and Sylvester Jones, who have been under arrest charged with the crime, they were released.

Shippers Meet.

Winston, Special.—At a meeting of the business men here a number of large shippers made addresses, which they criticised, in plain English, the unsatisfactory freight services now being given Winston-Salem by the Southern Railway. The names of those who have grievences and will furnish the State corporation commission with facts and figures when it meets here were announced. Those present were unanimously of the opinion that time for action had arrived and that the business men, in order to protect their interests must demand better freight facilities

AYCOCK ON SUFFRAGE.

The citizens of Maryland will soon vote on a suffrage amendment for that State similar to the one voted for in this State in 1900. Senator Gorman is leading the fight for the proposed amendment while Senator Rayner (democrat) and the majority of the leading Republicans are leading the fight against the amendment. They claim that the amendment is intended to build up a political machine in the State for Gorman and, if passed, he will control the election machinery and will disfranchise every white man, as well as negro, who cannot give a reasonable explanation of the Constitution. The outcome would be that the average white man would be disfranchised unless he voted as Gorman and his henchmen said. Of course this white man's explanation of the Constitution would not be reasonable unless it was known that he was a "Gorman man."

Now, coming to the point, last week ex Gov. Aycock, at the instance of Senator Gorman, spoke in Baltimore in support of this proposed amendment, and in the course of his speech Mr. Aycock said: "No white man has ever been disfranchised by the North Carolina amendment. It has removed the negro issue and given my State clean white man's politics." Continuing, Mr. Aycock said: "The truth is you cannot disfranchise the white man anywhere—except in the good old radical city of Philadelphia.." Surely, Mr. Aycock did not expect his speech to be reported in the North Carolina papers, for we all know, and Mr. Aycock has cause to know, that thousands of white men have already been disfranchised in North Carolina and many thousands more will be disfranchised after 1908 unless they become political slaves and vote with the democratic machine.

Mr. Aycock's speech in Baltimore brings to mind the speech he made in Asheville, in the spring of 1900, advocating the North Carolina amendment. Now listen and let's see if the ex-Governor didn't misstate facts then as he did in his Baltimore speech. In his speech at Asheville, in speaking of the poll tax provision of the proposed amendment, he said that "Senator Pritchard is trying to make capital against the amendment by saying it will disfranchise the poor white men who cannot pay their poll tax by the first of May preceding the election; he ought not to say that; he knows better. The Constitution provides that if the poor men cannot pay their poll tax, the County Commissioners may relieve them. * * * If you are a white man the County Commissioners can pay it for him and the white men can vote all the same."

Now the amendment has been in force in this State for five years, and we would like to hear how many white men have been "relieved" of paying their poll tax and have been given their receipt so as to enable them to vote? Mr. Aycock is a lawyer, and it is supposed he had read the Constitution of his State, and while the Constitution provides that the County Commissioners may exempt persons from poll tax in special cases on account of poverty and "infirmity" it does not provide for the payment of the poll tax of any one, no matter how poor or meritorious, and to "relieve" them from the payment of poll tax would do no good so far as allowing them to vote.

Mr. Aycock and the Simmons machine have managed to fool the voters during the last three State campaigns. But the voters are waking up, the dawn is breaking, and the time is not far distant when the voters of this State will relegate to the rear the false prophets and throw off the democratic yoke of despotism with which they are now burdened.

"We may agree with the President's policies now, and may continue to do so unless he gets them incorporated in his party's platform. —Durham Herald (Democratic.)

Why wouldn't the President's policies be just as good even if they were incorporated in his party's platform? Would you remain a democrat, even though you knew you were wrong? We knew that some papers were democratic, right or wrong, but we thought better of the Durham Herald.

It would be much easier to elect honest men to office than to elect a lot of grafters and then have to be watching them all the time.—Durham Herald.

Of course it would. Is the Herald ready to help us put better and more economical men in office?

It seems that some of the insurance companies have been spending money on the North Carolina Legislature. The money went through the hands of a democratic lawyer to lobby in their interest. Of course the amount paid was not much, but then it didn't take much!

Sentiment in the South Changing in Favor of Mr. Roosevelt.

Charity and Children.]

Few men have grown on the country as Mr. Roosevelt has within the past two years. He has always been regarded as an honest man, but owing to his strenuous view of life he was considered unsafe, and many feared that before his term was out he would embroil the country in a foreign war. All these fears have been dissipated, however, by the cool and prudent course the President has pursued. He has been placed in many delicate and difficult situations but in every one of them he has di-played fine common sense and a well poised judgment that has surprised and delighted the country. He is a man of great ability and courage, and besides these qualities he has the foresight and prudence of a great diplomat. The prophecy made by his friends that he would leave his office the most popular President since the war between the States, is likely to be fulfilled. Indeed we doubt that we have had a President within the past forty years who enjoyed more of the popular confidence and good will than that accorded Mr. Roosevelt today. No matter what a citizen's politics he can well take pride in the efficiency of the Chief Executive of his country, and the admiration of Mr. Roosevelt's course is finding very general expression. He is a broad-minded man and loves the whole country. The South has in him a friend as well as the North, and we take the more pleasure in saying these things of him because we were among the number who had grave fears that his alleged hot blood would bring us into trouble.

The President Worthy of the Esteem of the South.

Wilmington Messenger [

"North Carolina yesterday threw her gates wide open to the President of these United States and grve him such a welcome to her capital as no man has ever received there. In all sincerity and candor we do not believe that a single one of Mr, Roosevelt's predecessors in the office of President would have been more enthusiastically received. In antebellum days this Old Line Whig could not have turned out a larger or more enthusiastic crowd to receive a President of the State's own political faith. Since the days of reconstruction no man, not even Mr. Cleveland, in the heyday of his popularity during his first term, could have aroused more enthusiasm than did this successful candidate for the presidency of the Republican party on his visit to the capital of a State which always casts her electoral vote solidly for the Democratic nominee. What does this mean? Why this outpouring of the people, this wild enthusiasm? It is not mere curiosity to see what manner of man is he who presides over the executive department of the country. It is something far deeper and much worthier in them than that. It is the sturdy, patriotic people of the loyal old State of North Carolina to the man in the presidential office who has shown himself to be a man and to be worthy of their respect and esteem, though he differs with them on the "political issues of the day."

Way to Remedy Labor Question.

A group of men on a street corner Monday was bewailing the scarcity of labor, when one gentleman, more thoughtful than the others, suggested a never-failing remedy which all accepted as true. The remedy was to "vote the democratic ticket next year."

That is the situation in a few words. Place the democrats in power again and labor will again be plentiful and cheap. The factories and public works would soon be forced to close down as in the days of Grover. Men will again be tramping in search of labor. Somehow good seasons and bountiful yields amount to nothing when Democrats rule.

Yes, Republican government means prosperous times with plenty of work for all to do at profitable wages. If this don't suit you, then take another dose of soup houses and hard times.—Shelby Aurora.

Mr. Roosevelt's remarks here about the Confederate veterans did not sound like some things that have been said about them by our own cheap 2x4 curbstone politicians. He did not say they smelt like negroes or were back numbers because they were not of his political faith. He talked decently about them. It has been suggested by the Tammany bosses that Mr. W. R. Hearst will no longer be allowed to bear the name of Democrat, after taking the Socialist-like position he has in the New York mayoralty fight. But in view of the fact that there are so many sorts of Democrats these days, if you begin to weed them out in this fashion there would be hardly enough to hold another national democratic convention. Why can't Hearst be a Socialist-Democrat, just as we have Republican-Democrats in the South?—Union-Republican.

Gov. Glenn, in a letter to ex-Gov. Jackson, of Maryland, says, in part:

"Since the amendment went into effect we have had no trouble. The negroes who are qualified to vote, vote; those who are not, do not vote. In fact, the negro seems to have lost all interest in politics, and has gone to work and is becoming a better citizen."

If the above was true, why was it that the democratic politicians continued to yell "nigger" during the last two campaigns, after the amendment had gone into effect? It seems that they did it simply to fool the voters. They got into power on false issues, and that is their only hope of remaining in power, for they have no true issues on which they can stand.—The Caucasian.

If we are not badly mistaken Gov. Glenn, during the last two campaigns, yelled "nigger" with as much force as he did before the adoption of the Amendment. If he is right now in his letter to ex-Gov. Jackson, he was wrong then, Did he, for the sake of a few votes, strive to deceive the people, who had so often honored him, with a false cry of "wolf, wolf," when he knew no wolf was near? If such was his motive (and we can see no other) he is unworthy to occupy the high position he now holds.—Shelby Aurora.

Mr. Daniels Not Satisfied With Jury Trial.

Greensboro Record.]

"It's too bad when one's idol is shattered, just smashed to smithereens. Here is the editor of the esteemed News and Observer, Raleigh; no man has stood up or fought harder for the jury system in this country than Mr. Daniels; he has abused judges right and left for taking a case away from a jury. 'Trial by jury,' shouted Mr. Daniels, 'is one of the inalienable rights of a free people,' or words to this effect. He says this has been his policy and it must be true. Perhaps he has not changed his mind yet, though he may be shaky, for the very first time a jury made a pass at him they soaked him for $4,000 in the suit of Col. Osborn against the News and Observer and M. T. Leach. It seems like the irony of fate, but Mr. Daniels got it in the neck. Of course no one knows outside of the jury, but it is likely they thought they were doing him a great favor in awarding a judgment for only $4,000 when the suit was for $20,000. It is a trite saying that you can never tell what a jury is going to do. Mr. Daniels may have been of this opinion heretofore, but now he knows it is true."

James Haffidavit Pou.

It is about to be proved to the satisfaction of all thinking men that there is an understanding between the Republican managers and the big corporations. The managers get money from the big millionaires and then in return these trust nabobs are allowed to fleece the people —Davidson Dispatch.

If the editor of the Dispatch could only see himself as others see him "It would from many a blunder free him." Republicans make no claim to perfection; they make mistakes sometimes, and some of them do wrong. If one reads the Dispatch, and believes what he reads, he would imagine that the entire aggregation of Democrats were a sweet bunch of perfection. It's all wrong for corporations to give money to Republicans, but in the eyes of editor Varner it's their duty, and perfectly right and legitimate for corporations to hand it over to Mr. Pou, the Democratic lawyer, ex chairman, etc. Why don't you condemn him, also? Why see only one side? Consistency! consistency!—Davie Record.

Great.

A certain Republican newspaper slurred Gov. Glenn last week because he was doing the manly act as Governor of North Carolina by extending the proper courtesies to President Roosevelt who visits this State tomorrow. Gov. Glenn is a Democrat and President Roosevelt is a Republican, but they are both great Americans. It is a pity that some people are so blindly partizan. Davidson Dispatch.

Was it evidence of his (Gov. Glenn's) greatness to abuse and denounce the head of this great government last year and tell the people that no white man would vote for Roosevelt? Such a contemptible appeal to the voters of a great State like North Carolina may sound right and proper to editor Varner, and may be an indication of greatness, but from such greatness we shall ask the good Lord to deliver us. We don't know how Governor Glenn feels over it but if we were the Governor we would feel humiliated to look the abused President in the face. What will not a Democrat do for office? Last year it was Roosevelt the vile; now it is Roosevelt the great.—Davie Record.

Rockefeller Works on the Road.

In the November Country Calendar an anonymous author writes of John D. Rockefeller on his Winchester estate near New York city:

Mr. Rockfeller's roadmaking amounts to little less than a passion. In instructing his superitendent on the location of new roads, in supervising the actual construction—then Mr. Rockefeller is seen, perhaps, in his most genial mood. He rubs elbows with the laborers, laughs and cracks jokes with them; occasionally, it is said, he has been known to lend a helping hand. When he returns after one of his prolonged absences, his inquiries concern the progress upon some pet thoroughfare. And the work is in every way creditable. First the roads, as would be expected, are solidly built; Tarrytown and the surrounding country did not know what a well constructed road was until Mr. Rockefeller came. Above all, they are laid out with intelligence; they always lead somewhere, usually to vantage points from which unusually beautiful views are obtained. You can drive for hours on roads that Mr. Rockefeller has laid out, and not exhaust them.

Killed a Bear.

Cove, N. C., Oct. 30.—A large black bear, weighing about two hundred pounds, was killed Saturday near Cove, by Mr. H. L. White, a member of a hunting party. This is the second bear killed in this section within the last ten days. There are many black bear in the swamps and pocosins around Havelock and Riverdale, between Newbern and Morehead City, but it is seldom they are found west of New Bern. At least half a dozen bear have been killed in the Havelock section this season.

Eat 'Em Alive!—Entomologist Says Cabbage Snake is Not Poisonous.

Out on Lexington R. F. D. 3, Mr. J. R Craver found one of the much talked about cabbage snakes. It was about the size of a corn silk and five inches in length. It was forwarded to the Entomologist of the Agricultural Department at Raleigh for examination, and the following is his reply and opinion:

"Dear Sir:—The box which you sent in contained a so-called cabbage snake. A short time ago I received an inquiry in this State concerning the same worm. The cabbage snake is a harmless animal and in no way can injure a person eating same, even if he eats them alive. There are no poisonous properties whatever contained in their bodies. Newspapers in the past and present have been and are complaining how injurious and deadly are these snakes, but this newspaper talk is without foundation and is entirely yellow journalism. Very truly yours,

R. S. WOLGUM."

Swapped Wives.

A few years ago the State of Wilkes startled the world by claiming to have within her borders the only two men in existence who had actually swapped wives; however, Surry never allows her banner to trail in the dust, for she can now boast of such a case, and, besides, the Surry people "turned the trick" in a strictly legal way. At the last term of the Superior Court for this county, two couples from near Round Peak applied for and secured absolute divorces upon statutory grounds, in which the husbands of two women were named as co-respondents. David Tourney and Abner Montgomery were neighbors, and for some time had been making "goo-goo eyes" at each other's wife. The law severed the irksome bonds of matrimony, and a few weeks ago David married Ab's divorced wife, while invitations have been issued for the marriage of Ab to David's divorced spouse.—Mt. Airy Leader.

PRESIDENT CUT BY BROKEN GLASS.

Thrown Against Cabinet Window—Sustained Some Cuts About Arms and Shoulders.

In the collision between the lighthouse tender Magnolia, which was carrying the President to the mouth of the river below New Orleans, and the fruit steamer, Mr. Roosevelt was thrown against the window of his cabin and was slightly cut by the broken glass. As soon as the shock of the collision was over, Secretary Loeb and Dr Rixey ran to the President's cabin to see if he was safe. Mr. Roosevelt had been cut about the arms and shoulders and was bleeding some, but the wounds were slight, and he soon retired for the night.

The President was in good condition and fine spirits when he arrived in Washington Tuesday at noon.

Periodic Pains.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs.

"For a long time I have suffered greatly with spells of backache, that seem almost more than I can endure. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My sister, who suffers the same way, has used them with the same results." MRS. PARK, 721 S. Michigan St., South Bend, Ind.

I cannot advise any subscription by the Company to the campaign fund for any purpose. The money held by the Insurance Company in trust for its policy holders cannot be used for political, educational or religious purposes, and any vote by the directors authorizing a subscription would be beyond their authority, and for any money paid under such vote, the directors would be personally liable, and at the suit of any policy-holder the Court would require them to reimburse the Company.

RALEIGH, N. C. Oct. 26, 1905.

Entered at the Post Office in Raleigh N. C., as second-class mail matter.

The large dry goods store of Walter Woollcott, of this city, caught fire early Sunday morning and great damage was done to the store and stock of goods before the fire was extinguished. The damage is estimated at $35,000.

Will Doanes, an ex policeman of this city, gave himself up to the authorities Sunday night, saying he had killed a man in a quarrel over a gambling game. Upon investigation it was found the man was not dead but showed some ugly knife wounds. As a result of the investigation warrants were issued for a half dozen other men for gambling

There was quite a lively chase in the suburbs of Raleigh Tuesday evening between the Sheriff of Cabarrus county and a negro convict whom the sheriff was taking to the penitentiary to serve a sentence of ten years for rape. The sheriff had the prisoner cuffed and a chain around his legs; but while they were walking up the railroad track from the depot toward the penitentiary, the prisoner managed to slip the handcuffs from his hands and made for the country. The sheriff failed to catch his prisoner notwithstanding his legs were chained.

LIFE LOST BY ORPHANAGE FIRE.

Loss of Buildings and Contents Placed at $25,000.

As the result of the swift fire which consumed the "priest's house" at the Roman Catholic Orphanage in Raleigh early Sunday morning John Glavish, aged 16 years of Columbns county, is dead, and Elvin Buffaloe, aged 15, and Timothy Wallace, aged 23, of New York, are painfully but not fatally injured.

The building was a four story brick structure, next to the chapel. Twelve persons, Father O'Brien and some of the larger boys, several of the occupants barely escaping, were sleeping in it. Nothing was saved.

Buffalo and Glavish, in their excitement ran to the roof. Wallace went through the burning building to rescue them. From the roof the three leaped to the ground and tried to land on mattresses held for them. Glavish died Monday morning from his injures.

The lsss is placed at $25,000, with practically no insurance.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. George Kerrall Contests Sale of C. N. R.R.

George Kerrall of Marion, S. C., the holder of $10,000 bonds of the Carolina Northern Railroad Company has filed a petition in the United States Circuit Court at Raleigh, asking that the sale of the Company's property, recently made by R. T. Gray, special master, for $268,000, be not confirmed, but that the railroad be operated for the benefit of the bondholders.

The petitioner alleges that the operation of the road is profitable, and that by reason of the development of its terminal towns, Lumberton, N. C., and Marion, S C., and the intermediate country the profits will, within a few years, pay off the receivers' certificates outstanding against the property of the road and enable the interest on the bonds to be paid. He also alleges that a majority of the bondholders appointed a committee and refused to admit him to the benefits to accrue from the purchase of the road by the bondholders; also, inadequacy of the price bid.

Its stated that the title of Mr. Kerrell to the bonds he holds is contested.—News and Oberver.

Lynching in Georgia.

Savannah, Oct. 30.—A special to the Morning News from Bainbridge, Ga., says that Gus Goodman, a negro, was taken from the jail at an early hour yesterday morning by a mob of 300 men and lynched en the bank of the river, a short distance from town. Early in the night Goodman shot Sheriff Steagall, who was attempting to arrest him for the murder of a colored woman a few minutes before. Althougb wounded, Sheriff Steagall shot Goodman twice and the prisoner was placed in jail. A special train was sent to Thomasville for a physician, and after his announcement that the sheriff would not recover, the mob went to the jail, relieved the deputy of his keys and dragged Goodman from his cell. Goodman was swung up with a rope that held fast a steamboat, and fully a thousand shots were fired into his body.

Judge Pritchard Tnrows Out Union, S. C. Dispensary Case.

Asheville, N. C., Oct. 31.—The efforts of J. G. Howell, through his attorneys, to have the dispensary of Union county, S. C., reopened, and Mr. Howell reinstated as dispenser resulted in failure before Judge Pritchard of the United States Circuit court today. After hearing argument for a time on the rule recently issued citing the board of control of Union county to appear and show why the dispensary should not be reopened and Mr. Howell reinstated, the cause was dismissed on the ground that the court had no jurisdiction. The merits of the case was not considered by the court

Coffin Knocked Down by a Frightened Horse.

Richmond, Va., Oct. 30.—The body of William D. Coker, of Gloucester county, with the bodies of his wife and two daughters, murdered by him Saturday afternoon, were laid in the old homestead cemetery at Greenwood to-day.

Incident to the burial a horse hitched to a vehicle standing near the church door became frightened and dashed away, knocking from the coffin stand the casket containing Coker's body.

Blow From Monkey Wrench.

New Bern, N. It is feared death will result from his injuries.

Charles A. Stillings is Public Printer.

Washington, Oct 31.—Announcement was made at the White House today that theP resident had appointed Charles A. Stillings, of Boston, Mass., as Public Printer of the United States The appointment will take effect tomorrow.

A really fine piece of work is Maxim Gorky's short essay, "Life and the Well-Balanced Man," printed in the November Cosmopolitan. It rather takes the conceit out of people who believe in the aristocracy of intellect, for it shows that heart is as necessary as head to to the proper understanding of life and the world about us.

Elbert Hubbard, famous for his "one-minute discourses," which often contain more meat than a whole book, has another miniature essay in the November Cosmopolitan. This time he writes on "How to Keep Well," than which no more important topic could be discussed.

Farming For PROFIT

There is nothing too good for the Farmer; there it nothing too good for the Farm. Good batns, good houses, good wells, good fences, good stock, all on good land, under good management assure good profits. The good applies throughout. It must apply throughout, or it will not apply to profits.

Nowhere is discrimination more necessary than in the selection of fences. The farm must be fenced. Hence, select the best fence, the ELLWOOD FENCE.

The Elwood is built like a bridge—braced, supported, tied; no stronger or more substantial structure possible. Ellwood fences will hold your hogs, cattle, horses, and poultry. Ellwood Fence has always been popular. It answers all purposes and never disappoints.

We have Ellwood Fences for sale, and at prices that will suit you. Come and see us—we have a bargain for you.

QUESTION HE OBJECTED TO.

Victim of Cyclone Would Answer All but One.

"Yes," replied the man from Arkansas when asked if he had ever experienced any cyclones in his locality, "I've been through a cyclone or two, and I don't hanker after any more."

"Can you give us any particulars about them?" was asked.

"Why, yes, a few. When the last cyclone came along I was out in the field plowing with a four-mewl team. I started to run for cover, but I had not gone more'n four rods when the wind picked me up, and the next thing I knew I was astride of the back of one of them mewls, and we were both in a tree top, 50 feet above the ground. The handles had been twisted out of the plow and driven right through the trunk of the tree and one of the other mewls was hanging to them by his tail."

"That was a queer thing. And so you were left in the tree top?"

"I was."

"And—and—"

"That's all."

"But I want to ask you—"

"I don't care to say anything more."

"But look here," said the questioner. "You were blown into a tree top along with a mule and—"

"Please don't press me sir."

"But can't I ask you how you got down?"

"Oh, yes, you can ask that and welcome, and I'll answer you that some fellers came along and chopped the tree down. I thought you was going to ask me if the wind blew my hatband off and if I ever recovered it again, and that's a question I hain't going to answer for anybody."—Cleveland Plain Dealer.

A Tantalizing Maiden.

Do I love her?
Dimpling red lips at me pouting,
Dimpling shoulders at me flouting;
No, I don't!

Do I love her?
Prisoned in those crystal eyes
Purity forever lies;
Yes, I do!

Do I love her?
Little wild and willful fiction,
Teasing, torturing contradiction;
No, I don't!

Do I love her?
With kind acts and sweet words she
Aids and comforts poverty;
Yes, I do!

Do I love her?
Quick she puts her cuirass on,
Stabs with laughter, stings with scorn;
No, I don't!

Do I love her?
No! Then to my arms she flies,
Filling me with glad surprise;
Ah, yes I do!

Getting Back at Him.

A taciturn man went into a barber's shop the other day and began by pulling out of his pocket a paper on which was written:

"No; I do not wish to have my hair cut. I want to be shaved. I do not require any brilliantine or crimpoline, or anything else ending in 'ine.' Nor do I wish to be singed or shampooed. All I want is to be shaved in perfect silence."

The barber read the document, and then pointed to a notice on the wall, which ran:

The proprietor begs to apologize to his customers for not entering into conversation with them, as he is deaf and dumb."—London Tit-Bits.

People Will Drink Coffee When It "Does Such Things."

"I began to use Postum because the old kind of coffee had so poisoned my whole system that I was on the point of breaking down, and the doctor warned me that I must quit it.

"My chief ailment was nervousness and heart trouble.

"Any unexpected noise would cause me the most painful palpitation, make me faint and weak.

"I had heard of Postum and began to drink it when I left off the old coffee. It began to help me just as soon as the old effects of the other kind of coffee passed away. It did not stimulate me for a while, and then leave me weak and nervous as coffee used to do. Instead of that it built up my strength and supplied a constant vigor to my system which I can always rely on. It enables me to do the biggest kind of a day's work without getting tired. All the heart trouble, etc., has passed away.

"I give it freely to all my children, from the youngest to the oldest, and it keeps them all healthy and hearty." Name given by Postum Co., Battle Creek, Mich.

BULL REPORT

Statistics From Ginners Show a Light Crop

2-HOUR DELAY EXPLAINED

Census Bulletin, Issued Two Hours After Noon Wednesday, Places Cotton Ginned up to October 18, at 4,940,728 Bales, and Makes No Estimate of Total, But Gives Former Years' Figures as Guide.

Washington, Special.—The census Bureau issued a bulletin Wednesday placing the cotton ginned in the United States up to October 18th at 4,940,728 balees, round bales being counted as half bales. The statement is based on reports made by the bureau's special agents in the field.

No estimate is made of the total crop for the year, but figures are given out concerning crops of former years. These figures show that up to this date in 1904 the product of the gins had reached a total of 6,417,894 bales out of a total of 13,693,279 bales for the year. In 1903 the total production was 10,045,615 bales and the ginning output, up to October 2,376,248; in 1902, the total was 10,827,168 and the output to October 25 was 5,683,006. Wednesday's report covered 26,364 ginneries, and the statements upon which it was prepared were supplied by telegraph by 702 special agents in the field, most of them representing a county each.

The fact that the bulletin was not issued until 2 o'clock, two hours after the usual time, caused some complaint from brokers in different cities and some of these, which reached the bureau before the document was given to the public, were of a sensational character. They are summarized in the following from Secretary Hester, of the New Orleans Cotton Exchange:

"New Orleans, Oct. 25, 1905.

"Hon. S. N. D. North, Director of the Census, Washington, D. C.

"Much disappointment and dissatisfaction here at delay in issuing ginners' report to 2 p. m. Bache & Co., of New York, wire Hayward, Vick & Clark, of New Orleans, as follows: David Miller just made the statement to the effect that the ginners' report has been delayed from 12 o'clock to 2 o'clock so as to allow more time to certain parties to sell cotton, and says he will stand by the above.

"One rumor here is that the report will show, counting round as half bales, 6,100,100. All kinds of rumors are being spread and parties are selling the market down, and suspicion of something wrong is your bureau. I send this because I think it proper you should know it. The David Miller referred to was the receiver of Sully & Company and is a prominent member of the New York Cotton Exchange.

"H. G. HESTER."

To this, Director North replied:

"Washington, D. C., Oct. 25.

"Henry G. Hester, New Orleans Cotton Exchange, New Orleans:

"Telegram received. Nobody in this office knows even approximately at the moment how many bales ginned the report will show. The men engaged in compiling it are locked up and the door guarded on the outside. More than half of the telegraphic reports from country agents were received this morning and their compilation prior to 2 o'clock was a physical impossibility. "NORTH."

This telegram was forwarded before the bulletin was given out, and after it was issued it was stated that some of the reports from the agents were not received uptil 10 minutes before 2 o'clock.

The ginning product for the present year by States, is as follows:

Alabama, 641,133 bales; Arkansas, 117,511; Florida, 38,007; Georgia, 1,058,167; Indian Territory, 73,222; Kentuckv, 177; Louisana, 141,780; Mississippi, 311,472; Missouri, 8,575; North Carolina, 325,298; Oklahoma, 95,280; South Carolina, 639,974; Tennessee, 62,625; Texas, 1,417,456; Virginia, 4,051.

Seaboard Directors Renominated.

New York, Special.—The annual meeting of the voting trustees of the Seaboard Air Line Railway was held at the company's office in this city The object of the meeting was to select a board of directors to be voted for at the annual meeting of stockholders to be held in Petersburg, Va., November 9. The board of directors' were renominated without change, but John Skelton Williams entered a protest against the election of Thomas F. Ryan, J. A Dennis, T. J. Coolidge, Jr., and J. M. Barr.

Big Timber Deal.

Asheville, Special.—It is learned here that C. J. Harris, of Dillsboro, has purchased the well-known Whittier timber tract in Western North Carolina, consisting of 78,000 acres. This deal, it is understood has been made conditionally, as there are several damage suits pending against the property and other points are in litigation including a right of clear title. The consideration is not known.

A State of Anarchy.

Copenhagen, Denmark, By Cable.—Dispatches received from Riga, Russia, say that a state of anarchy exists there. The lawless element practically controls the city. Frequent bloody affairs have occurred with many casualities. Three government liquor shops were destroyed during the riot and a cashier was murdered and robbed of 24,000 roubles.

PRESIDENT IN AN ACCIDENT

Boat That Took President Roosevelt From New Orleans in Accident.

U. S. Flagship West Virginia, Via New Orleans, By Wireless Telegraph. —At 11 o'clock Thursday night thro' confusion of signals, the fruit steamer Esparata, collided with the lighthouse tender Magnolia, which was conveying President, Secretary Loeb and Dr. Rixey to the cruiser West Virginia. The rail and port bow of the Magnolia were damaged and two or three holes made in the hull below the water line. No one was hurt.

The Magnolia, immediately on being struck, was beached, her bow being high and dry. After a careful examination of the damage to the vessel, it was evident that there was no danger and the President and his party went to bed. Major Craighill, of the United States engineers, was aboard the Magnolia. His ship, the Ivy, a sister ship of the Magnolia, had preceded the Magnolia and was some distance ahead. A boat was immediately put off for the nearest telephone, about a mile and a [illegible] away, and the order given to head the Ivy off at pilot station, and have her return for the President and his party. The transfer was made at 3 o'clock Friday morning. The vessel got under way immediately and the West Virginia was boarded on schedule time.

President at New Orleans.

New Orleans, Special.—At the end of nine strenuous hours of varied entertainment in New Orleans, closing a pleasant trip through the South, President Roosevelt, at 6:30 o'clock Thursday night, boarded the lighthouse tender Magnolia and began his return journey to Washington.

The reception in this city was the grandest of all. So dense was the crowd that Mr. Roosevelt was forced to stop trying to speak in fear that a panic might result. His remarks at the splendid banquet were received with great applause. It was a fitting climax to the royal welcome extended the nation's chief executive in all parts of the South.

Civil War in Russia.

St. Petersburg, Special.—That the present situation cannot end without bloodshed, is the conviction prevailing in the higher government circles, which from moment to moment are expecting a conflict between the troops and the revolutionists in St. Petersburg and news of trouble in the provinces, especially at Kharkoff, which has been declared in a state of war. The Governor of Kleff has been instructed to take all necessary measures to restore order, which the local government and the commander of the troops are unable to maintain.

Confers Regarding Jamestown Exhibits.

Washington, Special.—Henry St. George Tucker, president of the Jamestown Exposition Company, was at the War Department and had a conference with Secretary Taft in reference to the War Department. He has had similar conferences with other members of the cabinet. He is going to Europe in the interest of the exposition and has procured credentials from the State Department.

Forged Checks For $1,100.

Norfolk, Special.—J. C. Cutchin, of Franklin, Va., was arrested there on the charge of swindling merchants here to the extent of $1,100 by forged checks on the bank in Franklin in the name of his uncle, C. J. Cutchin. He bought jewelry and other articles, it is charged and sent them to a confederate there. The first checks he gave were paid because the bank did not detect the supposed forgery. Cutchin has been a student in a business college here and is only 20 years old.

Attempted Suicide.

Gaffney, S. C., Special.—Mr. P. B. Love, a resident of Cherokee county, attempted to commit suicide a few miles from the city early Saturday morning. Mr. Love was, until recently a resident of this city but was removed to the country about a month ago when he was striken with paralysis. The attempt to take his life was made with an old knife that had been used in cutting tobacco. His throat was gashbed with the knife seven times and, although some of the cuts narrowly escaped the juglar vein, it was not cut.

Express Robber Pleads Guilty.

Pittsburg, Special.—Edward G. Cunliffe, the Adams Express robber, went into court and pleaded guilty to two charges of larceny, representing a theft of $101,100. Sentence was suspended until Saturday. Conliffe's action caused much surprise, as neither the Adams Express Company or Pinkerton's detective agency were represented in the court. He has no council and the belief is growing that Cunliffe is mentally unbalanced.

Republicans For Jerome.

New York, Special.—The executive committee decided at a special meeting Friday afternoon to call a county convention to name a candidate for district attorney to replace Charles A. Flammer, who resigned his candidacy. The committee also decided to advise that William Travers Jerome be named as the candidate, reversing its action of a few weeks ago.

Grant Family Gathering.

Windsor, Conn., Special. — The Grant Family Association, composed of the descendants of Matthew Grant, held a reunion in the family homestead here Saturday. Of Matthew Grant's descendants is is estimated that there are more than 8,000. General Ulysses S. Grant, and the Huntingtons, Phelps, Stokes, Logan, Goodrich and Palmer families are in the list of descendants.

TEXTILE NEWS OF INTEREST

Notes of Southern Cotton Mills and Other Manufacturing Enterprises.

Danville, Va.—The directors of the Dan River Power and Manufacturing Company have decided to double their plant of 43,000 spindles and 1614 looms, the Dan River Cotton Mills It may now be stated that the construction work will begin at once and be pushed as rapidly as possible to completion. This enlargement is merely the completion of the plant in accordance with the original plans. The first outlay was for mill No. 1, weave shed, cloth hall, dye-house, cotton houses, etc., with the equipment of textile machinery above mentioned. The No.2 mill will now be built and the second half of the weave shed will be completed. With the new installation tthe company will have a total of 86,000 spindles and over 3,000 looms, of which about 1,000 will be narrow looms. Messrs. Lockwood, Greene & Co., of Danville, are architects and engineers in charge of this construction work for the Dan River Cotton Mills.

Houston, Tex.—If the United States can be induced to remit the internal revenue on alcohol for use in the manufacture of goods in the United tStae,ans 1wd. wih,tofio ?amb United States, an artificial silk factory will probably be established at El Paso, otherwise the factory will probably be located in Mexico, where great inducements are being offered. That it will probably be necessary to send a delegation into Washington to urge the passage of a bill abolishing the tax on industrial alcohol was the belief of the directors of the Chamber of Commerce at a meeting held to consider correspondence carried on with French representatives of the artificial silk company. The letters from France indicated that wood alcohol could not be used as a substitute for the grain alcohol which has been used in the European factories of the company.

Columbus, Ga.—The Swift Manufacturing Co will build a 5,000-spindle addition to its present plant of 13,000 spindles and 423 looms. The company has now closed contracts for the improvements. It has awarded contract to the J. F. Gallivan Building Construction Company, of Greenville, S. C., for the erection of the new building, which will be a four-story, 80x100-foot annex to its present structure. In this building will be placed 5,000 spindles, with the accompanying machinery, and 100 looms for the production of plaids, cottonades, ticking, stripes and improved Miteheline beadspreads. The cost of the betterments will be about $75,000.

Fitzgerald, Ga.—Rapid progress is now being made at the Fitzgerald Cotton Mills in installing the new machinery recently decided on. By November 1 the company will have 10,000 spindles in operation, producing about 40,000 pounds of yarns weekly. This is an increase of 5,000 spindles by the company, and in connection with the improvements its capital stock has been increased from $125,000 to $200,000. Coarse yarns in warps and skeins will be the product.

Athens, Ga.—Increasing demands for the product of the Athens Cotton Mill Company's plant makes it necessary for that company to arrange for a larger output. The management has determined to effect this by doubling the present equipment of machinery, which consists of 3,500 ring spindles. C. E. Frost, treasurer of the company, is now in the Eastern States arranging the contracts for the new machinery. This company manufactures skein yarns.

Raleigh, N. C.—A charter has been granted at Raleigh, N. C., to the Myers Company, Greensboro, N. C., to manufacture any kind of textile fabric. The capital stock is $100,000.

Spray, N. C.—The American Yarn Company has been incorporated with $225,000 capital stock, by B. F. Mebane, W. R. Walker and S. H. Marshall, to spin cotton and other fibres.

Rock Hill, S. C.—A rumor is current here that the old Chicora Mills, which have been closed ever since the Southern Textile Company went into a receivership last year, will soon be started again. It is not known to whom the mills belong at this time, or who will head the movement to put them in operation again.

Wilson, N. C.—The Wilson Cotton Mills has declared a dividend of 7 per cent. on its $25,000 worth of preferred stock and 8 per cent. on its $75,000 common stock. This company operates 6080 ring spindles on the manufacture of warps and yarns.

Rutherfordton, N. C.—It is reported that the Levi Cotton Mills Company will enlarge its plant; present equipment 6240 ring spindles.

Huntsville, Ala.—It is rumored that the Merrimack Manufacturing Company will begin the erection in the near future of another cotton mill. The company has two mills in operation, and its original plans called for eight mills and a bleachery. Its spindles now number 88,448 and its looms number 2,587.

Raeford, N. C.—The Raeford Power and Manufacturing Company will develop 400 horse-power water-power and build a cotton mill. The mill will be erected first. This company was incorporated with capital stock of $125,000 for power and manufacturing purposes. Its incorporators were: Messrs. John Blue, T. B. Upchurch, J. W. Upchurch and J. W. McLaughlin. Chas. Iceman, of McColl, S. C., will be either superintendent or general manager.

A Minnesota Fish Story.

John Munter and John Frankson returned recently from a week's outing at Swan lake. Mr. Munter tells this fish story:

"Monday night we were crossing the lake in a small boat, when I saw something floating on the surface of the water. Frankson said it was a fish, and I stuck to it that it was a piece of wood that had been driven by the wind into the middle of the lake.

"Frankson insisted that it was a fish, and was so sure of it that he fired a shot at it from a shotgun. Imagine my surprise when I saw a monster pickerel flopping about in the water. We secured the fish and it weighed close up to twenty pounds.

"I have been on Minnesota lakes a great deal, at all times of the day and night, but this is the first instance of this kind I ever heard of."—Minneapolis Special.

England's Wheat Fields.

A preliminary statement issued by the Board of Agriculture shows the total acreage under all crops and grass this year to be 32,286,832, which is a decrease of nearly 31,000 acres compared with last year. With regard to cereal crops, it is gratifying to notice that the area under wheat this year shows an increase of 421,701 acres compared with last year, the total acreage under wheat being 1,796,985; but, on the other hand, there is a decrease of nearly 330,000 acres under barley and oats. There is a substantial increase in the number of horses, cattle, and sheep. Pigs show a decrease of 436,725.—[illegible]

Why They Waited.

Two young men, not much experienced in driving, went for a drive. During the ride the horse happened to yawn and the bit fell out of his mouth. Two hours later another man passed them and discovered both of the young men waiting with their conveyance by the roadside.

"What on earth is the matter with you? I passed you when I was going out and now when I come back you're still here. What's the matter?"

"Oh," replied one of the young men, "we're waiting for the horse to yawn again so we can put the bit in."

TORTURING HUMOR

Body a Mass of Sores—Called in Three Doctors But Grew Worse—Cured by Cuticura For 75c.

"My little daughter was a mass of sores all over her body. Her face was being eaten away, and her ears looked as if they would drop off. I had three doctors, but she grew worse. Neighbors advised Cuticura, and before I had used half of the cake of soap and box of ointment the sores had all healed, and my little one's skin was as clear as a new born babe's. I would not be without Cuticura if it cost five dollars, instead of 75 cents, which is all it cost us to cure our baby. Mrs. G. J. Steese, 701 Coburn St., Akron, Ohio."

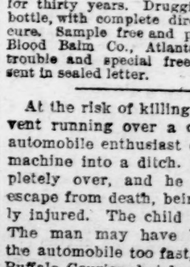
A DESPAIRING WOMAN.

Weak, Nervous and Wretched From Wasting Kidney Troubles.



Mrs. Henry A. Reamer, Main and Garst Sts., South Bend, Ind., says: "When I began using Doan's Kidney Pills I was so weak I could hardly drag myself across the room. I was wretched and nervous, and had backache, bearing-down pain, headache, dizziness and weak eyes. Dropsy set in and bloating of the chest choked me and threatened the heart. I had little hope, but to my untold surprise Doan's Kidney Pills brought me relief and saved my life. I shall never forget it."

At the risk of killing himself to prevent running over a child, a Boston automobile enthusiast directed his big machine into a ditch. It turned completely over, and he had a narrow escape from death, being quite severely injured. The child was unharmed. The man may have been operating the automobile too fast, comments the Buffalo Courier, but he thought quickly and acted heroically.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for ovarian or womb operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Hotel English, Indianapolis, Ind., writes of her cureas follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian and female troubles. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured; and words fail to express my thankfulness."

Miss Margret Merkley of 275 34 Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvis organs, cramps, bearing down pains and extreme irritation compelled me to seek medical advice. The doctor, after making an examination, said that I had ovarian trouble and ulceration, and advised an operation as my only hope. To this I strongly objected —and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Ovarian and womb troubles are steadily on the increase among women —and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhœa, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.
